

Experience gripping real-time PvP on your phone or tablet. Choose three brave heroes from a large set of Shadow Fight characters - and fight your way through the tournaments against real players. Discover an abundance of unique fighting styles, learn new special techniques and compete with your opponent to become the champion.

- Real-time PvP with classic combat controls, giving full control over every movement.
- Realistic animations and physics-based movements create unique and diversified combat situations every time you encounter the opponent
- Great variety of fighting styles. Each hero has their own weapons, skills and talents that combine to create a great tactical mix on the battlefield. Success depends on understanding the strengths and weaknesses of your team and your opponent's team.
- Further improved 3D graphics. The armor shows more details and the materials and surfaces look even more realistic. The heroes now have facial animations. Locations have a new depth, you will notice realistic shadows and more details in each element.
- Talent System - Your hero can be upgraded to a dramatically different character by choosing between many specialization options.
- Original Heroes - play with the most famous and powerful characters in the Shadow Fight universe, which has captivated more than 400 million players around the world.
- Offline fights - compete against the game's AI anytime, anywhere to improve your skills.
- Competitive skill game - with our fair but challenging fighting system, you can always compete against opponents at your skill level.
